SHUUHOU

(Hidemi Kataoka)

YOSHIMURA TOEN / 5th generation / Founded in 1923

Conscious of harmony between trees and pots, enhancing the artistry of bonsai masters

Studied under his father, a 4th generational potter, SHUUHOU, learned various techniques such as handwork, Coil forming, Thrown, Moulded, and inherited the project.

“Pottery” is one of the technologies that humankind is familiar with for a long time and enriches our lives, and when we can accumulate our own ideas and techniques at the same time as having depth, we are constantly seeking evolution and also daily research.

Trees and pots are important components of bonsai, and assuming the beauty when combined with “tree” is a necessary skill as a maker, but now it is beautiful even if the “pots” alone is used he aims for something beautiful.

We devised glazing methods and firing methods to create bonsai pots with distinctive depth and are liked by enthusiasts pursuing contemporary bonsai and innovative bonsai.
