### Expert skills supported from bonsai fans all over the world

From the predecessor's father Yukio, learn advanced technology to make high-quality bonsai pots by Moulded and Hand forming, inherit KAKUZAN TOEN.

In addition, I have studied the Chinese Grey Clay with high evaluation in the bonsai world, and developed a Grey Clay with shades, depths and texture that surpass it.

There are many fans not only lovers of Japan but also overseas enthusiasts.

Although I have honed my skills to satisfy the needs of bonsai masters and enthusiasts all over the world as well as in Japan, it is the my goal to create a work to meet further demands.

I am conscious of Japanese traditional beauty and convey that technology to future generations.
