(Takehiko Koie)

YAMAFUSA KOIE SEITOSHO / 4th generation / Founded in 1904

Bonsai making to bring out the bonsai world view infinitely

He really loves pottery and has a career in a different background with entrepreneurship in his 20s.

The artistic nature of the pots is also important, but the role of pots is to grow “trees” first.

It is important to think about the good balance of drainage and the balance of trees and pots, which is easy to grow trees in and demonstrates that this point is most important for pottery production.

In making works, it performs extensively from unglazed pots to glazed pots, boasts a wide variety of color / type variations centered on Shohin Bonsai Pots.

Because it is making pots considering not only the molding technology but also the functional aspect, growth of trees, it has earned high praise from bonsai garden and enthusiasts.
